## Dual Credit Solution

online courses for high school and college credit

### Course Listing

#### Business

- **Accounting for Managers** (Organizational Mgmt) [Buy Course Materials](#)  
This course provides an overview of accounting from the perspective of a non-accounting manager. It helps to develop the tools to understand the essentials of how finance functions within an organization. This includes internal controls, the function of accounting, historical accounting data and financial planning.
- **Legal Implications for Business** (Organizational Mgmt) [Buy Course Materials](#)  
A basic explanation of the law-its sources, development, terminology-and a discussion of specific legal doctrines and principles which affect business, with an introduction to business organizations such as corporations and partnerships, criminal contracts, legal documents and property.
- **Microeconomics** (Organizational Mgmt) [Buy Course Materials](#)  
A study of microeconomic theories of supply and demand, price determination, resource allocation, various degrees of competition and international trade and finance, as well as exploration of applications such as income inequality, rural and urban economics, social control of industry, and labor unions.

#### Communications

- **Communication Concepts** (General Education) [Buy Course Materials](#)  
An introduction to the concepts of effective oral and written communication to include functioning in teams and other organizational settings as well as interpersonal exchanges.
- **Essentials of Speech** (General Education) [Buy Course Materials](#)  
The principles of speech composition, outlining and delivery are discussed. There is practice in preparing and presenting speeches that can inform, persuade, demonstrate, and actuate. The student will be encouraged to make immediate application of principles within the current work environment.

#### English

- **Comp and Reading I** (General Education) [Buy Course Materials](#)  
This course is an exercise in critical reading and thinking and effective strategies of persuasion. It is also a study of paragraph and composition structure, focusing on expository and persuasive writing as well as the "rhetorical modes" with their use individually and cooperatively.
- **Comp and Reading II** (General Education) [Buy Course Materials](#)  
An exercise in the ability to read and think critically and to write persuasively. A study of the collection and synthesis of information from a variety of sources, focusing on the ability to use such information to logically construct an argument.
- **Language Program and Curriculum Design** (General Education) [Buy Course Materials](#)  
DESCRIPTION OF COURSE This course teaches the variety of administrative tasks that accompany TESL, needs assessment and setting priorities based on understanding the culture and community in which one teaches. Constructing TESL curricula and syllabi, lesson planning and determining how the day-to-day learning fits into the larger picture constitute the academic components. Other administrative concerns included in this course are time management, technology, strategies and decision-making. Students will analyze the design and use of commercially available texts and materials. Methods of developing one's own curriculum will be explored and experienced. Students will work on preparation, and evaluation of their own teaching materials, which can be used in future teaching situations.

● **Linguistics** (General Education) [Buy Course Materials](#)

This course is an introduction to linguistics and linguistic theory. It is specifically designed to provide a basic understanding of linguistics and practice with some of its applications to students who are not linguists, but who realize the need for familiarity with the fundamentals of linguistic theory in order to help them practice their profession.

● **Structure of the English Language** (General Education) [Buy Course Materials](#)

This course is a survey of the important structure, grammar and syntax of the English language that is essential for non-native speakers to know. The course will teach idiosyncrasies of each language group and how that affects learning English. A variety of techniques used in teaching language structure will be explored.

## Ethics

● **Christian Ethics** (Bible-Related) [Buy Course Materials](#)

A study of theoretical and practical problems of moral conduct and proposed solutions with an emphasis upon the nature of ethics, values, rights, obligations and opportunities.
